OUR LAYERED APPROACH

· Secure and reliable business class network connectivity with Firewall, VPN, Routers, Switches, and mesh Wi-Fi access points.

· Dependable, feature full, user friendly, and versatile business class phone system including HD desktop phone with Bluetooth & Wi-Fi, mobile app, web phone, and customizable settings.

· Fast, protected managed workstations with your choice of business class desktop or laptop, dual monitors, keyboard/mouse, Windows 11 Pro, password manager, and centrally managed anti-virus.

· Remotely managed Windows or Linux Servers for domain controllers, file share, and more.

Our team of highly trained experts understands how critically important reducing or even eliminating downtime is to our clients. Tech support is always available through phone or email. We offer standard phone support during normal business hours with afterhours, weekend, holiday, and 24X7 support available for emergencies.
